Mr Harold Weisberg

Dear Sir, I hope you remember me I had written you in 1982 asking you if you wanted some information ~~or~~ on the Ray case. You had answered me saying yes. I had written you back sending you some information and some papers I had. But I didn't get an answer from you. Well I have most of that information documented now by photo stuff. And am asking you once more if you want them or did you already write your book.

The reason I'm only writing you and not any body else is I saw an article in a Black publication and feel you would not drag my name in the mudd.

With Best Regards
